

IVAN VALLEJOS

SENIOR FULL-STACK DEVELOPER | .NET • ANGULAR • AWS • AZURE

Corrientes, Argentina | +54 379 400-7634 | ivan.vd89@gmail.com | [linkedin.com/in/ivan-vallejos-716a1415b](https://www.linkedin.com/in/ivan-vallejos-716a1415b) | ivanvd.pro

PROFESSIONAL SUMMARY

Senior Full-Stack Developer with 9+ years of experience building and modernizing web applications, REST APIs, desktop solutions, and enterprise systems using .NET and Angular. Experienced working with international clients across healthcare, insurance, aviation, payments, and business management. Strong background in end-to-end feature delivery, backend development, system integrations, cloud deployments, code reviews, and technical ownership.

CORE TECHNOLOGIES

Backend: C#, .NET Framework, .NET Core, .NET 5/6/8/10, ASP.NET Core, ASP.NET MVC, Web API, REST APIs, Entity Framework / EF Core, WCF, SignalR

Frontend: Angular 8-20, AngularJS, TypeScript, JavaScript, HTML, CSS, SCSS, Bootstrap, Angular Material, PrimeNG

Data: SQL Server, PostgreSQL, SQLite; database design, querying, integrations, and performance-oriented troubleshooting

Cloud & DevOps: Microsoft Azure (App Service, Functions, Storage, Azure SQL, Key Vault), AWS (S3, CloudFront, Elastic Beanstalk, RDS), Azure DevOps, CI/CD, Git, Bitbucket, TFS, IIS, Docker

Architecture & Practices: Clean Architecture, SOLID, MVC, MVVM, Repository Pattern, Unit of Work, CQRS, MediatR, Agile Scrum, code reviews, unit and integration testing

AI-Assisted Development: ChatGPT, Codex, Claude, Claude Code, Cursor

PROFESSIONAL EXPERIENCE

DEVLIGHTS | Full-Stack Developer | *International clients*

2017 - Apr 2026

Delivered and supported production software for clients in the United States and Canada, collaborating with product, design, QA, and client stakeholders in Agile teams.

SITA | Desktop Developer | *Canada-based aviation client*

2022 - 2024

- Contributed to the incremental modernization of legacy flight-tracking and aircraft-management desktop software using .NET Framework and WinForms.
- Enhanced complex user interfaces with Infragistics grids, trees, and menus while preserving established business workflows.
- Extended the existing MVVM architecture, data binding, and event handling to improve separation of concerns and maintainability.
- Implemented sorting, filtering, and export workflows for large operational datasets.

Technologies: .NET Framework, WinForms, C#, WCF, SQL Server, MVVM, Infragistics

SIMPLEADMIT | Full-Stack Developer | *US healthcare client*

2019 - 2021

- Maintained and enhanced a healthcare management platform used across multiple facilities, delivering backend and frontend improvements.
- Reduced manual work through backend automation and task-processing services, including scheduled email workflows.
- Integrated internal and external web services and supported HL7 message processing from parsing through SQL Server persistence.
- Participated in production support, defect resolution, refactoring, and iterative feature delivery with business stakeholders.

Technologies: .NET Core 3.1, ASP.NET Core, AngularJS, SQL Server, HL7, IIS

HST PATHWAYS | Full-Stack Developer | *US healthcare client*

2021

- Developed webhook-based workflows for payment and insurance integrations.
- Built internal web tools used to configure services and streamline operational workflows.

Technologies: .NET / ASP.NET Core, Angular 8-10, AngularJS, REST APIs, webhooks

PROFESSIONAL EXPERIENCE (CONTINUED)

PROACTIVE MANAGEMENT | Full-Stack Developer | *US-based client* 2018 - 2022

- Built web applications for gym management, healthcare, and insurance use cases across several business domains.
- Developed patient document-signing and medical workflow features, plus survey solutions for ambulatory surgery centers.
- Worked with AngularJS and modern Angular in evolving applications while delivering supporting .NET APIs and SQL Server functionality.

Technologies: .NET Core / ASP.NET Core, AngularJS, Angular 8-12, SQL Server

INTERNAL DEVLIGHTS PROJECTS | Full-Stack Developer 2017 - 2026

- Owned the full technical scope of multiple internal products as sole developer, including architecture, stack selection, implementation, deployment, and support.
- Translated business requirements into technical solutions through regular client-facing meetings and close collaboration with design and project management.
- Built internal client/user-management tools, company platforms, and a single-page simulation experience with REST API integration.
- Conducted code reviews and promoted coding standards, reusable patterns, and maintainable delivery practices.

Technologies: .NET 5/6/8/10, ASP.NET Core, Angular 13-20, SQL Server, PostgreSQL, AWS, Azure

SELECTED PERSONAL PROJECTS

MATEAPP | Business Management SaaS 2026 - Present

- Building inventory, sales, scheduling, real-time operations, dashboard analytics, and business workflows; deployed on AWS.

Technologies: Angular 20, .NET 10, PostgreSQL, S3, CloudFront, Elastic Beanstalk, RDS

PEDIDOSIMPLE | Order & Client Management 2026 - Present

- Developing a public landing page and administration dashboard for a local business, focused on usability and process automation.

Technologies: Angular 20, .NET 10, PostgreSQL, AWS

LOCALCONNECT | Social / Local Connection Platform 2026 - Present

- Developing media-upload and social features with a scalable API design; deployed in Azure for hands-on cloud architecture practice.

Technologies: Angular 20, .NET 10, SQL Server, Azure App Service, Azure Storage, Azure SQL

EDUCATION & LANGUAGES

Information Systems coursework (degree not completed) | Universidad Nacional del Nordeste | 2011 - 2016

Spanish: Native | English: B2 - Upper-intermediate / Professional working proficiency
